

**PHOTODOCUMENTATION
IS MANDATORY IN
SCLEROTHERAPY AND IN
ALL PHEBOLOGY
AESTHETIC TREATMENT**

Centro Paragayo de Varices con Láser
CEPAVA
Prof. Dr. Víctor González

This slide features the text 'PHOTODOCUMENTATION IS MANDATORY IN SCLEROTHERAPY AND IN ALL PHEBOLOGY AESTHETIC TREATMENT' in large, bold, yellow letters. At the bottom, there is a logo for 'Centro Paragayo de Varices con Láser CEPAVA Prof. Dr. Víctor González'.

SET OF TREATMENT

- GAS: Ambient air/Co2 Syringes
- OZONE
- THREE WAY STOPCOCK
- INFUSION SET
- NEEDLES
- ULTRASOUND
- TRANSILUMINATOR
- VEIN LIGHT

Centro Paragayo de Varices con Láser
CEPAVA

This slide lists the 'SET OF TREATMENT' in yellow text. The items listed are: GAS: Ambient air/Co2 Syringes, OZONE, THREE WAY STOPCOCK, INFUSION SET, NEEDLES, ULTRASOUND, TRANSILUMINATOR, and VEIN LIGHT. At the bottom, there is a logo for 'Centro Paragayo de Varices con Láser CEPAVA'.

VEIN VIEWER IMAGING SYSTEM

THE VEIN VIEWER SUPERIMPOSE DATA OR IMAGE DIRECTLY ON TO REAL OBJECTS OR ENVIORNENTS

CONECTING THE PHYSICAL WORLD WITH THE DIGITAL WORLD

MAKING EASIER FOR PEOPLE TO LEARN. INFORMATION MAKE DESICIONS EXECUTE TASK MORE QUICKLY AND FASTER.

PHLEBOLOGY SKILL SET

POLIDOCANOL IS THE BEST
LESS PAIN
LESS CUTANEOUS ULCERATION
LESS PIGMENTATION
ALLERGIC REACTIONS ARE RARE

CHOOSE THE RIGHT CASE
USE VEIN VIEWER
TRANSILUMINATOR
DUPLEX SONO
PRESSURE ON THE PLUNGER SHOULD BE GENTLY
-LOW VOLUME
LOW CONCENTRATION
MULTIPLE PUNCTURES
LIQUID FOR TELANGIECTASIA
FOAM FOR RETICULAR

Indications Recommendation 1:
We recommend sclerotherapy for all types of veins, in particular:

- Incompetent saphenous veins (GRADE 1A)
- Tributary varicose vein (GRADE 1B)
- Incompetent perforating veins (GRADE 1B)
- Reticular varicose veins (GRADE 1A)
- Telangiectasias (spider veins) (GRADE 1A)
- Residual and recurrent varicose veins after previous interventions. (GRADE 1B)
- Varicose veins of pelvic origin (GRADE 1B)
- Varicose veins (refluxing veins) in proximity of leg ulcers (GRADE 1B)
- Venous malformations (GRADE 1B)

Sclerotherapy: Indications and Safety
 Volume 2
 Basu M, Parv S, Coates AT on behalf of IUP
 © 2014, IUP, the International Union of Phlebology, a non-profit organization of health care professionals.
 Contents: 2014 Management Recommendations include: telangiectasias (TAs) and reticular veins (RVs).

Management Recommendation	Grade	Level of Evidence
Telangiectasias (TAs)	1A	1
Reticular veins (RVs)	1A	1
Incompetent saphenous veins (ISVs)	1B	1
Tributary varicose veins (TVs)	1B	1
Incompetent perforating veins (IPVs)	1B	1
Residual and recurrent varicose veins (RRVVs)	1B	1
Varicose veins of pelvic origin (VVOs)	1B	1
Varicose veins (refluxing veins) in proximity of leg ulcers (VRLUs)	1B	1
Venous malformations (VMs)	1B	1
