

VEITH SYMPOSIUM[®]
Connecting The **Vascular** Community

The J. Leonel Villavicencio Latin-American Program at VEITHsymposium

Friday, November 22, 2024

7:00 a.m. – 6:00 p.m. | Murray Hill Suites, 2nd Floor

This is a Non-CME activity.

7:00 – 7:05	Welcoming Remarks <i>Enrico Ascher, MD</i> <i>Frank J. Veith, MD</i>		
SESSION 1	PERIPHERAL ARTERY DISEASE 1	SESSION 3	VENOUS SESSION
<i>Moderators:</i>	<i>Tulio Navarro, MD, PhD</i> <i>Jorge Ulloa, MD</i> <i>Rebeca Reachi, MD</i> <i>Armando Mansilha, MD, PhD</i>	<i>Moderators:</i>	<i>Nicos Labropoulos, MD</i> <i>Jorge Ulloa, MD</i> <i>Rebeca Reachi, MD</i> <i>Aleksandra Jaworucka-Kaczorowska, MD, PhD</i>
7:06 – 7:16	Treatment Of Renal Arteriovenous Fistula Of Traumatic Etiology With Coronary Covered Stent <i>Santiago G. González, MD</i>	9:00 – 9:10	Pulmonary Embolism Risk Stratification <i>Nick Mouawad, MD</i>
7:17 – 7:22	Predictability Of Pedal Acceleration Time In Limb Salvage In Revascularized Patients <i>Michel Acta, MD</i>	9:11 – 9:16	Efficacy Of Ultrasound-Guided Foam Sclerotherapy For Venous Ulcers In Patients Non-Adherent To Compression: Preliminary Results From A Prospective Cohort Study <i>Douglas Poschinger-Figueiredo, MD</i>
7:23 – 7:28	Fear Perception And Clinical Severity In Diabetic Foot Ulcers: A Multicenter Cross-Sectional Study <i>Alfredo Verástegui Dávila, MD</i>	9:17 – 9:22	Experience With DVT/PE And IVC Filter Insertion At A Level II Trauma Safety-Net Hospital System <i>Grahya Guntur, MD</i>
7:29 – 7:34	Above-Knee Femoropopliteal Revascularization In TASC D Patients – As Comparison Among Angioplasty With A Single Stent, Angioplasty With Multiple Stents, And Open Surgery <i>Leonardo Silveira de Castro, MD</i>	9:23 – 9:28	Comparison Of Covered Versus Uncovered Stents For Superior Vena Cava Syndrome: A Systematic Review And Meta-Analysis <i>Grace C. Mulatti, MD, PhD</i>
7:35 – 7:40	Long And Complex Lesions In The Femoro-Popliteal Territory Were Treated With The Supera Stent <i>Ana Paula Mollon, MD</i>	9:29 – 9:34	Experience With The ClotTriver Mechanical Thrombectomy Device In Patients With Extensive Deep Venous Thrombosis At The General Hospital Of The Plaza De La Salud <i>Elsa Rollán, MD</i>
7:41 – 7:46	Correlation Of The Wifi Classification With Major Amputation And Mortality In CLTI <i>Tulio Navarro, MD, PhD</i>	9:35 – 9:40	Long-Term Results And Paradigm Shift In The Treatment Of Pelvic Venous Disorder (PVD) <i>Fabio H. Rossi, MD</i>
7:47 – 8:04	Panel Discussion	9:41 – 9:46	Axillary Versus Jugular Vein For Totally Implanted Port-A-Cath, Randomized, Controlled Trial <i>Guilherme Yazbek, MD</i>
SESSION 2	ABDOMINAL AORTA	9:46 – 9:59	Panel Discussion
<i>Moderators:</i>	<i>Elina Quiroga, MD, MPH</i> <i>Ignacio Escotto, MD</i> <i>Rossi S. Murilo, MD</i> <i>Chang Shu, MD</i>	SESSION 4	NANO ENDOLUMINAL – THE VERSATILITY OF THE REPOSITIONABLE FENESTRATED AND BRANCHED APOLO ENDOGRAFTS IN THE MANAGEMENT OF COMPLEX AORTIC AND ILIAC ANEURYSMAL DISEASE
8:05 – 8:15	2023 Brazilian Guidelines On AAA <i>Grace C. Mulatti, MD, PhD</i>	<i>Moderators:</i>	<i>Edwaldo E. Joviliano, MD, PhD</i> <i>Daniel Miquelin, MD</i>
8:16 – 8:21	AORTEK – Design And Development Of A Hybrid Bovine Pericardium Aortic Endograft <i>Luis Felipe Cabrera Vargas, MD</i>	10:00-10:02	Opening Remarks <i>Armando C. Lobato, MD, PhD</i>
8:22 – 8:27	Initial Experience In The Treatment Of Complex Abdominal Aortic Aneurysms With Modified Endografts Guided By 3D Printing <i>Jeison Peñuela-Arredondo, MD</i>	10:02-10:08	The Revolutionary Sliding Rail Technique – The Advantages Of The Repositionable Apolo Fenestrated Endografts <i>Nilo Mandelli, MD, MSc</i>
8:28 – 8:33	Chemotherapy Is Associated With Faster Abdominal Aortic Aneurysm Growth In Patients With Concomitant Cancer In A Multicenter Cohort <i>Harue Santiago Kumakura, MD</i>	10:08-10:14	Repositionable And Non-Covered Apolo Endografts For Aortic Dissections <i>Arno von Ristow, MD, PhD</i>
8:34 – 8:39	Outcomes Of Abdominal Aortic Aneurysm Repair In The Brazilian Public Healthcare System: A 10-Year Analysis And The Impact Of The COVID-19 Pandemic. <i>Lara N.M. Lopes, MD</i>	10:14-10:20	Endovascular Preservation Of Internal Iliac Artery Flow With A Novel Repositionable Apolo Iliac Branched Endograft <i>Fernando Reis Neto, MD</i>
8:40 – 8:45	Safety And Effectiveness Of The Braile Stent Graft For The Endovascular Treatment Of Aortic Diseases <i>Fabio Augusto Cypreste Oliveira, MD</i>	10:20-10:26	Repositionable Fenestrated Apolo Endograft For Treatment Of Aneurysms And Dissections Of The Aortic Arch <i>Mauri Comparin, MD</i>
8:46 – 8:59	Panel Discussion	10:26-10:32	What We (Don't) Know About Bridging Stents: Do Some Devices Perform Better With The Apolo Fenestrated And Branched Endografts? <i>Julio Peclat, MD, PhD</i>
		10:32-11:00	Panel Discussion

SESSION 5	INARI MEDICAL – ADVANCING DVT CARE: FULL RANGE FROM ACUTE TO CHRONIC	1:51 – 1:56	Malignant Type 2 Endoleak: An Entity With A Worse Prognosis? <i>L. Mariano Ferreira, MD</i>
11:00–11:05	Introduction And Welcome Remarks <i>Rebeca Reachi, MD</i>	1:56 – 2:06	Panel Discussion
11:05–11:17	Integrating DVT Care And Optimizing Outcomes Through Patient Pathways <i>Laurencia Villalba, MD</i>		SESSION 8
11:17–11:30	Wall To Wall Thrombectomy And Its Role In Modern Full Range DVT Treatment <i>Ana Maria Botero, MD</i>		PENUMBRA – LATIN AMERICA EXPERIENCE WITH THROMBUS REMOVAL USING COMPUTER ASSISTED VACUUM THROMBECTOMY (CAVT™) TECHNOLOGY
11:30–11:42	Patient Selection Across The Chronicity Spectrum <i>Rafael D. Malgor, MD, MBA</i>		Moderators: <i>Gustavo Paludetto, MD</i> <i>Tiago Coutas, MD</i> <i>Felipe Tobar, MD</i>
11:42–11:55	Proven Success Maximizing Outcomes And Value In DVT Treatment <i>Tiago Coutas, MD</i>	2:07 – 2:14	Thrombus Management Evolution <i>Gustavo Paludetto, MD</i>
11:55–12:00	Panel Discussion	2:15 – 2:22	Clinical Evidence In PE – STRIKE PE Interim Results <i>Gustavo Paludetto, MD</i>
Moderator:	<i>Rebeca Reachi, MD</i>	2:23 – 2:28	PERT Group And Patient Selection <i>Tiago Coutas, MD</i>
12:00–12:15	LUNCH AVAILABLE	2:29 – 2:36	Lightning Flash 2.0: Challenging PE Cases <i>Tiago Coutas, MD</i>
SESSION 6	COOK MEDICAL - LUNCHEON SYMPOSIUM: OPTIONS FOR CHALLENGES IN TAAA PATHOLOGIES: HIGHLIGHTS OF COOK'S PORTFOLIO	2:37 – 2:44	DVT: My Experience With CAVT™ Technology <i>Luis Fernando Garcia, MD</i>
12:15–12:20	Welcome And Introductions <i>Carlos H. Timaran, MD</i>	2:45 – 2:52	Modulated Aspiration Technology For ALI <i>Felipe Tobar, MD</i>
12:20–12:35	Endovascular TAAA Treatment - Anatomical And Clinical Features Relevant To Technical Performance And Treatment Indications <i>Lucas Freire, MD</i>	2:53 – 2:59	Clinical Data For ALI: STRIDE Study <i>Felipe Tobar, MD</i>
12:35–12:50	Aortic Research Consortium (ARC) Experience In TAAA Repair <i>Carlos H. Timaran, MD</i>	3:00 – 3:07	Panel Discussion
12:50–1:05	Thoracoabdominal Treatment In Type B Aortic Dissection <i>Juan Pablo Carbonell, MD</i>		SESSION 9
1:05– 1:15	Questions and Answers		SHOWDOWN: CHALLENGING CASES
SESSION 7	MORE ARTERIAL TOPICS		Moderators: <i>Sebastian Cifuentes, MD</i> <i>Andres Marin, MD</i> <i>Sidney Galego, MD</i> <i>Tulio Navarro, MD, PhD</i>
Moderators:	<i>Juan Esteban Paolini, MD</i> <i>Gutenberg Gurgel, MD</i> <i>Rebeca Reachi, MD</i>	3:08 – 3:18	Use Of DES In Remote Popliteal Segment <i>Guillermo Garelli, MD</i>
1:16 – 1:26	Total Percutaneous Repair Of Aortic Arch With 3 Branches By Unique Femoral Access <i>Juan Varela, MD</i>	3:19 – 3:24	Aortic Endograft Infections: A Race Against Time <i>Maria Camila Garcia Roa, MD</i>
1:27 – 1:32	Outcomes Comparison Of Direct Coverage Versus Fenestration For Isolated Left Vertebral Artery Management In Zone 2 TEVAR <i>Zuo Pu, MD</i>	3:25 – 3:30	Popliteal Aneurysm: Endovascular Treatment <i>Gustavo Carbajal Contreras, MD</i>
1:33 – 1:38	Emergent Endovascular Management Of Traumatic Aortic Injuries Secondary To Vehicle Accidents In A Latin American Hospital With Secondary Referral Admissions <i>Juan G. Barrera-Carvajal, MD</i>	3:31 – 3:36	One-Stage Repair Using Greater Saphenous Vein Graft In The Right Common Iliac Artery In A Patient With Severe Abdominopelvic Trauma: Case Report <i>Thais Rengifo, MD</i>
1:39 – 1:44	Posterior Reversible Encephalopathy Syndrome (PRES): Role Of Vascular Surgery In The Endovascular Era <i>Sebastian Soto, MD</i>	3:37 – 3:42	Kissing Stent In Iatrogenic Dissection Of The Superior Mesenteric Artery During Branched Endovascular Aortic Repair <i>Rosario Amorin, MD</i>
1:45 – 1:50	Early Carotid Endarterectomy: Favorable Outcomes In Symptomatic Carotid Disease Patients In A Middle-Income Country Setting <i>Andrea Paola Munive Gnecco, MD</i>	3:43 – 3:48	Surgical Management Of Infected Abdominal Aortic Reconstruction With Home-Made Bifurcated Xenopericardial Graft <i>Carlo Zuniga, MD</i>
		3:49 – 3:54	Addressing Aortic Graft Infections: Utilization Of Cryopreserved Allografts In Complex Vascular Surgery <i>Paula Huertas</i>
		3:55 – 4:00	Endoseptotomy For Endovascular Repair Of Thoracoabdominal Aneurysm Associated With Chronic Type B Aortic Dissection: Case Report <i>Altino Ono Moraes, MD</i>
		4:01 – 4:10	Panel Discussion

SESSION 10 INTERESTING MISCELLANEOUS TOPICS

Moderators: Jorge Ulloa, MD

Santiago Gonzalez Duarte, MD

Ana Maria Botero, MD

Ignacio Escotto, MD

- 4:11 – 4:21 Thrombectomy In Children, A New Indication?
Marcial Fallas, MD
- 4:22 – 4:27 Endovascular Repair Of Penetrating Arterial Injury
Fernando Joglar-Irizarry, MD
- 4:28 – 4:33 Catheter-Directed Thrombolysis In A Neonate With
Infrarenal Thrombosis: Case Report
Manuel Pabon, MD
- 4:34 – 4:39 A New Look At The Creation Of A Fistula In A Patient
With Severe Central Venous Stenosis
Guilherme Farme de Amoed, MD
- 4:40 – 4:45 Hemodynamic Alterations Of Various Anesthesia
Modalities In The Surgery Of Arteriovenous Fistulas In
The Upper Extremities
Ricardo Jayme Procópio, MD
- 4:46 – 4:51 In-Vitro Results Of Multigraft-BAC: The Regenerative
Vascular Graft With Antimicrobial And Antithrombotic
Activity For The Prevention And Treatment Of Vascular
Infections
Alejandro Velandia-Sánchez, MD
- 4:52 – 4:57 Incidental Portal Vein Aneurysm: Open Surgical
Resection And Primary Aneurysmorrhaphy As A Viable
Treatment Approach
Valeria Sanabria-Giraldo, MD
- 4:58 – 5:02 **Panel Discussion**

SESSION 11 PERIPHERAL ARTERY DISEASE 2

Moderators: Andres Dominguez, MD

Gloria Salazar, MD

Thais Rengifo, MD

- 5:03 – 5:13 Lateral Access To The Peroneal Artery Without
Resection Of The Fibula For The Treatment Of CLTI
Nelson DeLuccia, MD
- 5:14 – 5:19 Impact Of Systemic Inflammation On Outcomes
Following Revascularization In PAD Patients On
Hemodialysis
Diego Herrera Vegas, MD
- 5:20 – 5:25 Salvage In Chronic Limb Threatening Ischemia In
Patients Previously Treated With Stenting In The
Femoral Area
Juan Esteban Paolini, MD
- 5:26 – 5:31 Endovascular Treatment Of Peripheral Artery Disease
Using Ultrasound Guidance At La Samaritana University
Hospital, Bogota, Colombia Between 2018 And 2021
Héctor Conrado Jiménez Sánchez, MD
- 5:32 – 5:37 Impact Of Community And Socioeconomic Factors On
Amputation Outcomes After Superficial Femoral Artery
Stenting
Antonio Solano, MD
- 5:38 – 5:48 **Panel Discussion**
- 5:48 – 6:00 **J. Leonel Villavicencio Award**
- 6:00 – 6:30 **Reception**
